**ABOUT THE FACULTY:**

Our teaching staff continues their training and study in dance with the masters of their field. They continue to expand their dance education by attending specialized dance classes with world famous dance educators, choreographers and dancers. They also attend yearly dance conventions and seminars for dance educators.

Our well rounded faculty began training in the classroom just like your dancer! Our staff has continued their dance career on to the professional stage as well as the college classroom. Our dance educators all share the same vision, philosophy, syllabus, and

direction for their dancers. They train each dancer as an individual while using a unified teaching syllabus strong in technique. Dance Alive! Dance Studio has broken ground for many of our dancers to pursue careers as professional dancers as well as inspired many to go on to become dance educators themselves!

The faculty at Dance Alive! has been recognized for dance and choreography excellence many times over and continues to strive for a higher level of excellence with every class.
